

SUSTAINABILITY GOALS

Ingevity's sustainability goals are initiatives driven by four catalysts, Manufacture Responsibly, Embrace Innovation, Prioritize People and Pursue Excellence, that frame our sustainability strategy and propel our efforts to purify, protect and enhance the world around us.

PRIORITIZE PEOPLE

- 1 SAFETY**
By 2028, we will reach ACC's top quartile in personal and process safety performance while continuing to strive to achieve zero injuries
- 2 COMMUNITY**
We will continue to invest in the communities where we live and work through funding and volunteerism

MANUFACTURE RESPONSIBLY

- 3 GHG EMISSIONS**
By 2050, we will be carbon neutral for absolute GHG emissions from our manufacturing operations
